TEDDY LAZEBNIK

Last update: 23.9.2026

PROFESSIONAL SUMMARY

Applied Computational Mathematics researcher and AI developer in the fields of epidemiology, medicine, economics, and information systems. A decade and a half of experience in software development in the industry, including a decade of experience as an algorithm developer with a focus on data-driven algorithms for bio-medical and financial tasks.

ACADEMIC EMPLOYMENT

Jonkoping University, Department of Computing September 2025 - Current
Assistant Professor

- Lecturing Introduction to Databases (Bachelor's degree).
- Lecturing Introduction to Reinforcement Learning (Master's degree) - my own course.

University of Haifa, Department of Information Systems October 2025 - Current
Assistant Professor

- Lecturing Data Structure and Algorithms (Bachelor's degree).
- Lecturing Introduction to Linear Algebra (Bachelor's degree).
- Lecturing Introduction to Reinforcement Learning (Master's degree) - my own course.

Ariel University, Department of Mathematics October 2023 - September 2025
Assistant Professor

- Lecturing Calculus 1 + 2 for mathematicians (Bachelor's degree).
- Lecturing Calculus 1 for mechanical engineering (Bachelor's degree).
- Lecturing Topology (Bachelor's degree).
- Lecturing Introduction to Reinforcement Learning (Bachelor's degree) - my own course.

Bar Ilan University October 2023 - September 2025
Teaching Associate

- Introduction for cybersecurity for managers (Bachelor's degree).
- Digital transformation (Bachelor's degree).

Reichman University, Department of Computer Science Feb 2023 - July 2023
Teaching Associate

- Lecturing Operation Systems (Bachelor's degree).

Bar Ilan University, Department of Information Science and Department of Management Feb 2023 - July 2023
Teaching Associate

- Lecturing Business Intelligence (Bachelor's degree).
- Lecturing Back-end Development (Bachelor's degree).

Holon Institute of Technology, Department of Computer Science Feb 2023 - July 2023
Teaching Associate

- Lecturing "Introduction To Cybersecurity" (Bachelor's degree).
- Lecturing "The Mathematical Aspects of Cybersecurity" (Master's degree) - my own course.

University College London, Department of Cancer Biology Sep 2021 - Aug 2023
Honorary Post-doctoral researcher (Hosted by Prof Stephan Beck)

· Developed a novel artificial genomics generator using machine learning and bio-genomic models.
· Leading research in the development of personalized medicine through data-driven algorithms.

Bar-Ilan University, Department of Computer Science Jul 2020 - Jul 2021
Research And Teaching Assistant

· Teaching the following courses: Advanced Programming 1 and Advanced Programming 2 - all Bachelor's degree.
· Academic research guidance for Master computer science students' final project.
· Developed a Mathematical model & simulation of nanoparticles-based targeted drug delivery.
· Developed a novel academic search engine from scratch to tackle local concept drift in academic search.

Bar-Ilan University, Department of Mathematics Oct 2018 - Jul 2020
Research And Teaching Assistant

· Teaching the following courses: Partial differential equations (PDE), Introduction to linear mathematical optimization, Numerical Analysis 1, and Tools for Numerical Programming for Engineering - all Bachelor's degree.
· Academic research guidance and code review for Bachelor and Master computer science students' final project.

Holon Institute of Technology, Department of Mathematics Feb 2020 - Jul 2020
Lecturer

· Teaching Deep Learning for Computer Vision (Bachelor's degree).

Holon Institute of Technology, Department of Mathematics Oct 2019 - Feb 2020
Teaching Assistant

· Teaching Numerical Analysis (Bachelor's degree).

ACADEMIC EDUCATION

Ariel University 2020 - 2021
Ph.D. in (Bio)mathematics

· Thesis about "Modeling and Numerical Calculation of Pandemic Spread and Optimal Oncology Treatment Protocols" - supervised by Prof. Svetlana Bunimovich-Mendrazitsky.

Bar-Ilan University 2017 - 2018
M.Sc. in Applied Mathematics

· Thesis about "Highly Stable Numerical Algorithm for Matrix Exponent" - supervised by Dr. Shlomo Yanetz.

Bar-Ilan University 2013 - 2016
B.Sc. in Applied Mathematics

· Final project about "Observable of Discrete-continuous Linear Time Interval Systems with Continuous Time Measurement".

ACADEMIC HONORS AND AWARDS

Ariel University 2022
Ph.D. student

· A prize for academic excellence with multiple high-quality publications.

Bar-Ilan University 2017
M.Sc student

· A prize for excellence in studies and research at the master's degree in the name of David Barkovski.

STUDENTS SUPERVISION

Post-doc students

- University of Haifa & Jonkoping University, Meirav Har-Even, 2025-current.
- University of Haifa & Jonkoping University, Amit Yaniv-Rosenfeld, 2025-2026.

P.hD. students

- University of Haifa, Lee-or Aloni, 2026-current.
- University of Haifa, Inbar Kirshenboim, 2026-current (co-advisor with Prof. Nissim Cohen).
- Bar Ilan University, Gilat Rotkop, 2026-current (co-advisor with Dr. Avshalom Elmalech).
- University of Haifa, Dr. Maxim Glebov, 2025-current.
- Bar Ilan University, Ariel Alexi, 2024-current (co-advisor with Prof. Ariel Rosenfeld).
- Bar Ilan University, Amit Bengiat, 2024-current (co-advisor with Prof. Ariel Rosenfeld).
- Ariel University, Dr. Adi Shuchami, 2024-2026.
- Bar Ilan University, Dr. Assaf Shmuel, 2023-2026 (co-advisor with Dr. Oren Glickman).

M.Sc. students

- Open University of Israel, Amir Noiboar, 2025-current.
- University of Haifa, Arie Stoliarsky, 2025-current (co-advisor with Dr. Rona Aviram).
- Reichman University, Gilad Ilani, 2025-current.
- Jonköping University, Noufa Haneefa, 2026-2026 (co-advisor with Dr. Einav Peretz-Andersson).
- Jonköping University, Mahmut Osmanovic, 2026-2026.
- Jonköping University, Isac Paulsson, 2026-2026.
- Jonköping University, Simon De Reuver, 2026-2026.
- Jonköping University, Tamas Kristof Toth, 2026-2026.
- Jonköping University, Maximilian Engwall, 2026-2026.
- Jonköping University, Ivo Osterberg Nilsson, 2026-2026.
- Jonköping University, Lukas Toral, 2025-2025.
- Jonköping University, Bilge Taskin, 2025-2025.
- Jonköping University, Wenxiong Xie, 2025-2025.
- Bar Ilan University, Ariel Alexi, 2023-2024 (co-advisor with Prof. Ariel Rosenfeld).
- Tel Aviv University, Liron Simon Keren, 2021-2022 (Help to advise with Prof' Alexander Liberzon).
- University College London, Jackson Cheung, 2022 (Help to advise under the supervision of Prof' Stephan Beck).
- Ariel University, Yonatan Herskowitz, 2022-2023 (co-advisor with Prof. Svetlana Bunimovich-Mendrazitsky).

Undergraduate students

- Ariel University, Eden Aloni, 2024-2025.
- Bar Ilan University, Chen Tal-Schachar, 2018-2019 (Under the supervision of Prof' Gal A. Kaminka).
- Bar Ilan University, Pedro Nissan, 2017-2017 (Under the supervision of Prof' Gal A. Kaminka).

TEACHING COURSING

Academic courses

- Jonkoping University, Introduction to DataBases - lecturer, first degree.
- Jonkoping University, Reinforcement learning for engineering [my course] (X3) - lecturer, second degree.
- University of Haifa, Reinforcement learning [my course] (X2) - lecturer, second degree.
- University of Haifa, Introduction to Data Stractures and Algorithms - lecturer, first degree.
- University of Haifa, Introduction to Linear Algebra - lecturer, first degree.
- Ariel University, Reinforcement learning for engineering [my course] - lecturer, first degree.
- Bar Ilan University, Cybersecurity in digital transformation [my course] - lecturer, first degree

· Ariel University, Calculus 1 (X2) - lecturer, first degree.
· Ariel University, Calculus 2 (X2) - lecturer, first degree..
· Bar Ilan University, Introduction to cybersecurity for managers [my course] - lecturer, first degree.
· Ariel University, Introduction to reinforcement learning [my course] - lecturer, first degree.
· Reichman University, Operation Systems - leading lecturer, first degree.
· Holon Institute of Technology, Mathematical aspects in cybersecurity [my course] - lecturer, second degree.
· Holon Institute of Technology, Introduction to cybersecurity [my course] - lecturer, first degree.
· Bar Ilan University, Back-end development - lecturer, first degree.
· Bar Ilan University, Business Intelligence - lecturer, first degree.
· Bar Ilan University, Advanced Programming 2 - teaching assistant, first degree.
· Bar Ilan University, Advanced Programming 1 - teaching assistant, first degree.
· Bar Ilan University, Numerical Analysis (X2) - teaching assistant, first degree.
· Bar Ilan University, Introduction to Linear Mathematical Optimization and Tools for Numerical Analysis for Engineers - teaching assistant, first degree.
· Holon Institute of Technology, Deep Learning for Computer Vision tasks - teaching assistant, first degree.
· Holon Institute of Technology, Numerical Analysis - teaching assistant, first degree.
· Bar Ilan University, Introduction to Linear Mathematical Optimization - teaching assistant, first degree.
· Bar Ilan University, Partial Differential Equations - teaching assistant, first degree.

Industry courses

· Naya College, Data Science (420 hours course): Introduction to Programming in Python, Data Analysis, Introduction to Machine Learning, Introduction to Deep Learning, and Introduction to MLOps (X2).
· Y-Data, Introduction to Machine Learning.

Conference Talks (selected)

1. **Subject: Lazebnik, T.**, Physics-informed spatio-temporal symbolic regression.
   Conference: 18th US National Congress on Computational Mechanics, 07.2025.

2. **Subject: Lazebnik, T.**, Shami, L., Got much, got nothing: Analyzing the impact of increased special interest groups' influence on utility.
   Conference: The 47th Eurasia Business and Economics Society conference, 04.2024.

3. **Subject:** Simon-Keren, L., **Lazebnik, T.**, Liberzon, A., Predictive correlations for particle motion across a stratified interface using machine learning .
   Conference: The 14th International ERCOFTAC symposium on Engineering, Turbulence, Modelling and Measurements, 09.2023.

4. **Subject: Lazebnik, T.**, Using ML models in infectious diseases prediction with economical constraints.
   Conference: AI2 - medicine in the AI Era, 05.2023.

5. **Subject: Lazebnik, T.** and Bunimovich-Mendrazitsky, S., Extended Mathematical Model for the BCG-based Treatment of Type 1 Diabetes.
   Conference: Dynamical Systems Applied To Biology And Natural Science, 02.2023.

6. **Subject: Lazebnik, T.** and Bunimovich-Mendrazitsky, S., Mathematical Model for the BCG-based Treatment of Type 1 Diabetes.
   Conference: Dynamical Systems Applied To Biology And Natural Science, 02.2022.

7. **Subject:** Shami, L. and **Lazebnik, T.**, Financing and Managing Epidemiological-Economic Crisis: The Reserve Model.
   Conference: ICEA, Public Policy Lessons conference, 11.2021.

8. **Subject: Lazebnik, T.**, Shami, L., and Bunimovich-Mendrazitsky, S., Epidemiological-Economical Pandemic Management By A Spatio-Temporal Mathematical Model.
   Conference: Dynamical Systems Applied To Biology And Natural Science, 02.2021.
